

Tanmay Basu

Associate Engineer

Hyderabad, India | Frontend • Full-Stack • Backend Development

PROFILE

Associate Engineer with hands-on experience in frontend development, backend services, API integration, and AI-powered developer tooling. Skilled in building user interfaces, reusable components, REST/GraphQL integrations, and full-stack applications using React, Angular, TypeScript, JavaScript, Node.js, Python/FastAPI, and databases. Experienced in troubleshooting client issues and delivering validated UI fixes across environments.

PROFESSIONAL EXPERIENCE

VS CODE PLUGIN Associate Engineer — Backend & Plugin Development | VS Code AI Plugin

- Contributing to a VS Code plugin that provides a chatbot-style coding experience.
- Working on backend services, API integrations, chat workflows, and plugin functionality.
- Implemented a chat filter option to improve conversation navigation and usability.
- Integrated an API that enables users to search for AI agents available across the organization.

EXPERIENCE STUDIO Frontend Developer — Experience Studio 2.5

- Worked on frontend development, implementing AAVA components and UI changes.
- Contributed to the Design System and Workspace using reusable components and UI patterns.

HP DELTA Frontend Development

- Worked on frontend development and troubleshooting for the HP Delta client.
- Implemented UI fixes and enhancements across the INT and SFI environments.
- Validated the fix across the affected environments to ensure consistent functionality.

EDUCATION

B.TECH Computer Science & Engineering — Vellore Institute of Technology (VIT), Bhopal

TECHNICAL SKILLS

FRONTEND React.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI

BACKEND Node.js, Express.js, Python, FastAPI, REST APIs, GraphQL, Apollo Server

AI / LLM LLM-powered applications, Prompt Engineering, Tool Integration, Knowledge Bases, OpenAI API

DATABASES PostgreSQL, MongoDB

TOOLS Git, GitHub, Postman, Vite, Jest, Playwright, VS Code

SELECTED PROJECTS

- **Insurance Management Application:** Angular, Node.js, Express.js, MongoDB, GraphQL, Apollo Server — Full-stack application with authentication, role-based access, policies, claims, and payments.
- **Stock Photo Gallery:** JavaScript, Node.js, Next.js, FastAPI, PostgreSQL — Full-stack gallery with API-backed web integration.
- **AI Image Generator:** React.js, Node.js, OpenAI API — AI image generation application with frontend/backend integration.
- **Expense Tracker Dashboard:** React, TypeScript, Material UI, Context API, Recharts — Dashboard with reusable components, state management, visualization, and local persistence.

CURRENT FOCUS

FOCUS Backend and plugin functionality for a VS Code coding assistant, with emphasis on API integration, chat workflows, UI enhancements, and reliable cross-environment functionality. Also continuing to build practical full-stack applications across React/Angular and Node.js/Python stacks.

PREFERRED ROLES

TARGET Frontend Development (React / Angular) • Full-Stack Development • Backend Development (Node.js / Python)
